

# Y

## YEHUDA

Introducing the  
**SHERLOCK HOLMES 4.0**

which will be available to preview at the  
 JCK Las Vegas Show, booth #5098

**ONLY \$6,745**

- ▶ Visible checking area at once: 10 by 15cm (Approx 4" by 6")
- ▶ Loose diamond checking area at once: 10 by 15cm (250 carats)
- ▶ Number of rings in a tray: 27
- ▶ Height of checking area: 50mm (2 inches) (tall enough to check bangles, bracelets and other large pieces of jewelry!)
- ▶ Rotating fingers to easily check multiple rings from all sides: up to 20 rings at a time

The Sherlock Holmes 4.0 "sees" all corners as well as it sees the middle tray. No distortions!

**NEW optimized user interface that's very easy to use. Just one click and then a few seconds for the result. No need to change platforms or calibrate.**

All results are automatically uploaded to the cloud! Plus you can add Certificates, appraisals, customer picture, customer name, SKU, barcode and any number of files or data to the test upload.

Retrieve data easily, and compare results to previous tests from any device with a user friendly interface.

Store all of the test results from multiple detectors under one account.
